

Ziehm 8000

Proven C-arm technology

Ziehm 8000. This C-arm fits ideally into clinical workflows. The combination of reliable mobile imaging technology and high-resolution flatscreen monitors makes it the solution of choice among orthopedic, pain management, traumatology and urology specialists. Every detail of the Ziehm 8000 – from the intuitive positioning of handles and controls through its compact footprint to the ergonomic shape of the mobile stand and monitor cart – reflects our in-depth understanding of clinical environments to support your daily business.

Reliable mobile imaging technology.

Unmatched mobility with superior image quality.

Increased imaging performance

- Optimal image quality due to high-resolution flatscreen monitors
- Superior detail resolution thanks to high-contrast ratio and luminance levels
- Equipped with postprocessing functions such as edge enhancement, step windowing and zooming
- Advanced “Metal” and “Soft” programs to prevent image flaring

Intuitive operation

- Self-explaining user interface for image capturing and patient data management
- High level of automation allows surgeons and OR staff to concentrate on the procedure
- Customizable startup configuration provides “start and go” functionality
- Programmable function (“F”) key for crosshair overlay and filter removal

Unrivalled mobility

- Lightweight monitor cart improves working conditions in the OR
- The whole examination workflow can be controlled directly from the mobile stand
- All movements are fully counterbalanced in all positions
- Equipped with our unique combined steering and braking lever for perfect maneuverability and parallel movement

Features

High-resolution flatscreen monitors provide clear, high-contrast images.

Ziehm 8000's anatomical programs ensure optimum image quality.

Ziehm 8000 is characterized by its small footprint and unmatched mobility.

Applications

Traumatology

Orthopedics

Spine
